

Queensland Regulated Ship Census, June 2020

About this publication

This publication presents the results of a census taken of Queensland Regulated Ships (QRS) that were registered on 30 June 2020. Queensland Regulated Ships are recreational vessels or other vessels expressly excluded from the operation of the Marine Safety (Domestic Commercial Vessels) National Law Act 2012 (Cth) or the Navigation Act 2012 (Cth).

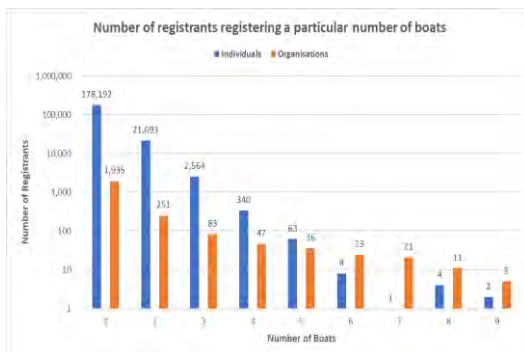

The data presented in this publication was extracted from the Department of Transport and Main Roads TRAILS Registration System (the register) on 21 July 2020.

This report provides selected details of the registered QRS. These details include the maritime region in which the ships were registered, the length of the ship, the ship types, the engine output, the year of manufacture, the method of storage and the age, gender and licence status of the registrants of the ships.

For purposes of comparison, data is also provided at 30 June for the years 2015 and 2019.

The calculation of the growth rates and decommissioning rates mentioned in this report have been made using the formulas described in the Australian Bureau of Statistics 9309.0 - Motor Vehicle Census, Australia using data presented in the attached tables and previous additions of this report.

Key Points

At 30 June 2020 there were 264,547 QRS - boats and personal watercraft (PWC)- listed on the register by 226,178 different registrants (individuals or organisations).

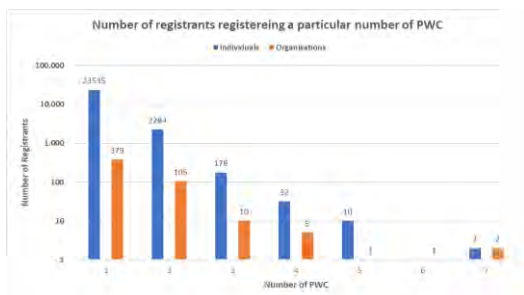

This equates to approximately one registered QRS for every 19 people resident in Queensland.

There were 234,846 boats registered by 205,303 registrants. Most registrants (88%) had registered a single boat while another 10% of registrants had registered two boats.

The remaining 2% of registrants had registered a total of

4.6% of all registered boats (10,831).

While most boats (231,050) were registered by individuals, 3796 boats were registered by 2436 organisations.

There were also 29,701 PWC registered to 26,553 registrants.

Most registrants (90%) had registered a single PWC while another 9% of registrants had registered two PWC.

The remaining 1% of registrants had registered a total of 3.4% of all registered PWC (1009).

While the majority of PWC (28,858) were registered by individuals, 843 PWC were registered by 510 organisations.

It is of interest that 5678 registrants had registered at least one boat and at least one PWC. In total these registrants registered 7301 boats and 6774 PWC. The majority (69%) registered a single boat and a single PWC.

During the twelve months ending 30 June 2020, 17,683 boat registrations were added to the register, 16,293 were removed from the register, while 20,861 were transferred from one registrant to another. Based on these figures Queensland's flotilla of registered boats has a decommissioning rate of approximately 6.5% per annum.

Year	New Registrations No.	Discontinued Registrations No.	Transferred Registrations No.	Total No.
Boat				
2015	18139	16626	19682	231350
2019	16924	16946	19260	233456
2020	17683	16293	20861	234846
PWC				
2015	3509	2109	2689	21794
2019	3982	2501	3219	27835
2020	4388	2522	3720	29701

Over this same period 4388 PWC registrations were added to the register, 2522 were removed from the register while 3720 were transferred from one registrant to another.

Based on these figures Queensland's flotilla of registered PWC has a decommissioning rate of approximately 7.8% per annum.

Together these transactions resulted in the number of boats and PWC on the register increasing by 0.6% and 6.7% over the past year and by an annual average rate of 0.3% and 6.4% over the past five years respectively.

The Brisbane Maritime Region accommodates 75% of the Queensland population and 57% of the QRS; 54% of the boats and 81% of the PWC. This amounts to one boat for every 30 people, one PWC for every 159 people, and so 5 boats for every PWC. The majority of registered QRS, boats and PWC are in the Brisbane Maritime Region.

Maritime Region	Boats No.	PWC No.	QRS No.	Population No.
Brisbane Region	126202	24029	150231	3828648
Gladstone Region	46468	2647	49115	535084
Mackay Region	18766	978	19744	174582
Townsville Region	22136	992	23128	261875
Cairns Region	21235	1050	22285	294321
Out Of State	39	5	44	
Total	234846	29701	264547	5094510

In contrast the Gladstone Maritime Region accommodates 11% of Queensland's population and 19% of QRS; 20% of the boats and 9% of the PWC. This amounts to one boat for every 12 people, one PWC for every 202 people, and so 18 boats for every PWC.

The other three Maritime Regions - Mackay, Townsville and Cairns - accommodate 14% of the Queensland population and

25 % of the Queensland Regulated Ships; 26% of the boats and 10% of the PWC. It is noteworthy that boats are most popular in the Mackay region where there is one boat for every 9 people and that PWC are least popular in the Cairns regions where there is one PWC for every 283 people.

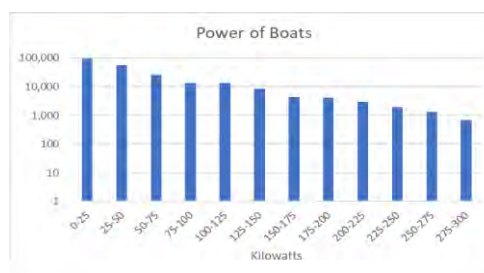

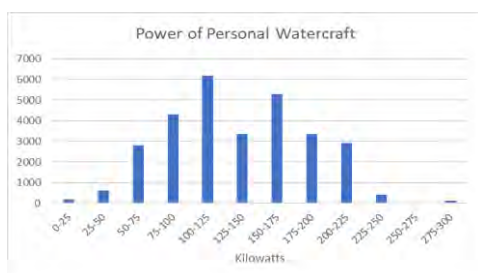

Vessels

The most popular type of boat is the open runabout which accounts for 65% (152,074) of all registered boats. Most of these boats (94%, 143,240) are trailered rather than moored or otherwise accommodated.

Fifty per cent of open runabouts are: no longer than 4 metres, have engines producing no more than 22 kilowatts, were manufactured no more than 16 years ago and have registrants with a median age 56 years. Nine per cent (13,462) of open runabouts fall within all four of these categories.

Generally, most boats (70%) are no more than 5 metres in length. This percentage increases to 93% for boats which are no more than 7.5 metres in length. Ninety per cent of boats are fitted with an outboard engine while only three per cent also carry sails.

The reported engine output figures of boats need to be interpreted with some caution as they may indicate the power of the motor fitted to a boat at the time it was first registered. Sixty-six per cent of boats are fitted with an engine producing no more than 50 kilowatts while 92% of boats are fitted with engines producing no more than 150 kilowatts.

The reported engine output figures of the inboard engines of personal watercraft can be interpreted with greater confidence. Fifty-nine per cent of PWC are fitted with an engine producing no more than 150 kilowatts while 99% of PWC are fitted with engines producing no more than 250 kilowatts.

Estimating the age of the flotilla presents some difficulty as 17% of boats were registered without the year of manufacture being recorded.

Nevertheless, the extant records indicate that 20% of boats were manufactured before 1996, 44% were manufactured between 1996 and 2010 leaving 20% that were manufactured within the last 10 years. The average age of a boat is 18 years and the median age is 15 years.

In contrast only 0.4% of PWC have been registered without the year of manufacture being recorded.

The majority of PWC (84%) were manufactured after 2005 while 16% of PWC were manufactured before 2006. The average age of a PWC is 9 years and the median age is 7 years.

Over the past five years the average age of boats has been increasing by 7 months per year, while the average age of PWC have been decreasing by one month per year.

Registrants

Baby Boomers (people born between 1947 and 1966) registered 41% of the boats and 26% of the PWC on the register. Generation X/Y (people born between 1967 and 1986) registered 37% of the boats and 50% of the PWC.

The average ages of those registering a boat or a PWC were 54 years and 46 years respectively.

Males registered 87% of the boats and 81% of the PWC on the register.

Ten per cent of boats have been registered by an individual who does not hold a Recreational Marine Driver Licence (RMDL). Forty-three per cent of individual registrants obtained their RMDL no later than the year 2000 while a further 46% obtained their RMDL between 2001 and 2020. There are 1230 current boat licenses that were issued in 1962, the first year in which boat licenses were first issued.

Eight per cent of PWC have been registered by an individual registrant who does not hold a Personal Watercraft Licence (PWCL). Thirteen per cent were issued a PWCL in 2005, the first year in which PWCL were issued, while 76% were issued a PWCL between 2006 and 2020.
